## **u-blox opens a new office in Chongqing to better serve customers in Western China**

**Thalwil, Switzerland and Shenzhen, China – August 31, 2015** – u-blox, a global leader in wireless and positioning modules and chips, officially inaugurated a new office in Chongqing, China. The aim of the opening is to bolster u-blox automotive and industrial applications, in particular GNSS and short range products, in the Western China market.

"The opening of the new Chongqing site demonstrates our interest to further invest in the fast growing market of Western China. By getting closer to key local automotive and industrial customers, u-blox shows its dedication to offer the best services and support to existing and future customers," explains Tonny Zhong, Country Manager of u-blox China. "We are also planning to increase our head count in the near future," he adds.

The new facility is located on the 40<sup>th</sup> floor of the famous Chongqing International Finance Center, a landmark skyscraper towering 431 meters over the city's business center.

### New office address:

u-blox Chongqing
