3 Description of Change

The UBX-M8030-KA chip has now changed status to Mass Production. In this respect, some documents have been revised and updated. The updates affect the below combined set of documents for UBX-M8030-KA, UBX-M8030-KT and UBX-M8030-CT.

UBX-M8030-KT/KA/CT Data Sheet [1]:

- Status changed to Production Information

Provided more clarity for absolute max rating values for Vi and ViDIG in Table 15

UBX-M8030-KT/KA/CT Hardware Integration Manual [2]:

- Status changed to Production Information.
- Update Table 21 (Recommend parts list for SQI Flash)
- Added POR_IO related recommendation.

In both documents, some typos and graphic layouts have been corrected. Some minor texts have been modified to better clarify the subject(s) described. Affected documents contain a revision history with further information about the changes.

4 Customer Recommended Action

There are no changes in Data-Sheet values, nor in functionality of the devices. Above mentioned documentation updates have immediate effect, and latest versions can be requested from u-blox.
