### 1 Affected Products

Product Name	Order Number	Type No	Remarks
NEO-6G	NEO-6G-0	NEO-6G-0-001	

### 2 Type of Change

- Hardware modification
- Firmware update
- Documentation update
- Others: production test system improvement

### 3 Description of Change

In a constant effort to improve our products and production yield a minor internal hardware modification has been implemented. The modification is a change of a pull-down resistor value for further improvement of the product.

### 4 Customer Impact and Recommended Action

There will be no technical impact for customers, as the module maintains same form, fit and function.

The change can be seen as the date code will change.

**Old date code:** 162400.0300.001

**New date code:** 162400.0400.001

Change will happen with immediate effect
