2 Type of Change

- Hardware update
- Firmware update
- Documentation update
- Others, product reached Initial Production status

3 Description of Change

3.1 Firmware update

A new firmware and a new boot loader have been released to resolve some issues. For a complete list of the resolved issues, refer to the release notes. The released firmware package can be downloaded from the u-blox website.

3.2 Documentation update

The following documentation has been updated to reflect the updated design status of the product:

- Data Sheet [1]
- System Integration Manual [2]
- Getting Started Guide [3]
- EVK User Guide [4]
- AT commands manual [5]
- Release Notes [6]

4 Schedule

Updated documentation as mentioned in section 5 is available now.

Estimated first shipments for products with Initial Production status is estimated on September 24, 2016.
