2 Type of Change

- Hardware modification
- Firmware update
- Documentation update
- Others, _____

3 Description of Change

The ODIN-W2 product series together with the EVK-W262 evaluation kit have reached status Engineering Samples.

New and updated documents and tools have been made available on the u-blox web site, www.u-blox.com.

New firmware has been released; please contact your FAE for the latest version.

4 Schedule

Documentation, tools and FW are all available now.

5 Customer Impact and Recommended Action

AT command specification has been updated and several bugs have been fixed. It is recommended that customers update the firmware to the latest version and adapt the host application to the new set of AT commands [1].
