3 Description

The u-blox ZED-F9H module has reached Initial Production status. There have been firmware changes since the availability of ZED-F9H-00B-01. The label has changed due to the new order code. A new type number has been introduced to identify the latest module.

- New type number: ZED-F9H-01B-00
- New firmware version: 1.00 HDG 1.13

See Release Note [1] for full details on changes in the firmware.

4 Schedule

First production parts are available as of the publication of this document.

5 Customer impact and recommended action

- Previous ZED-F9H-00B versions can still be ordered by customers who want to use an older firmware version, although the migration to the latest ZED-F9H-01B version is highly recommended.
- It is possible to upgrade ZED-F9H-00B units to the new HDG113 firmware.
