3   Description

3.1   Product status change

The ANNA-B4 series of Bluetooth low energy modules are now released for Mass Production. The u-blox professional grade qualification process has been completed and the long-term reliability report is available on request.

3.2   Certification and qualification

Additional country approvals for Taiwan and South Africa have been completed. This means that ANNA-B402 and ANNA-B412 modules are now certified/compliant according to the regulatory requirements in:

- Europe (RED)
- US (FCC/CFR 47 part 15, unlicensed modular transmitter approval)
- Canada (ISED)
- Australia/New Zealand (ACMA/RCM)
- Brazil (ANATEL)
- Great Britain (UKCA)
- Japan (MIC)
- South Africa (ICASA)
- South Korea (KCC)
- Taiwan (NCC)

For further information about the country approvals, see the data sheet [3] [4] and system integration manual [5].

3.3 Documentation updates

The documentation has been updated to reflect the new product status and new country approvals.

4 Schedule

This information is effective as of March 11th.

5 Customer impact and recommended action

Customers are advised to review the updated documentation.
