3   Description

u-blox MIA-M10C has reached initial production (IP) status.

u-blox MIA-M10C, with the integrated u-blox M10 chip, is an ultra-low-power GNSS receiver for high-performance asset-tracking devices. Related documentation is published on u-blox.com or is available upon request under NDA.

3.1   Certification information

u-blox has issued the EU Declaration of Conformity [8] and the UK Declaration of Conformity for this product [9].

4   Schedule

MIA-M10C Initial Production Samples are available from February 2024.
