1 Affected Products

Product in End-of-Life	Recommended Successor Product
LISA-U200-61S	LISA-U200-62S

2 Reason for discontinuation

- Changes in component software result in the need for a new version of the LISA-U200-61S module. The development, qualification, and production of a new version would result in increased unit cost, while the technical features of such a product would no longer fulfill market requirements.
- Introduction of a successor product, LISA-U200-62S, with new firmware offers better performance and more functionality.

3 Recommendation

- LISA-U200-62S is the pin-to-pin compatible successor of LISA-U200-61S.
- Software developed for LISA-U200-61S will run also with LISA-U200-62S.
- No other actions required.

4 Schedule

Last Time Buy Date:	02 December 2014
Last Ship Date:	19 February 2015

5 Contact

We thank you for your understanding in this situation and assure you our very best support. u-blox appreciates and values your continued business relationship and looks forward to your future interest in our outstanding product portfolio. Please contact your nearest u-blox sales team for any questions you may have.
