POSITIONING

NEO-7 series u-blox 7 GNSS modules

Highlights

- GNSS engine for GPS/QZSS, GLONASS
- Product variants to meet performance and cost requirements
- Combines low power consumption and high sensitivity
- Backward compatible with NEO-6 and NEO-5 families

NEO-7 series: 12.2 x 16.0 x 2.4 mm

Product description

Product selector

The NEO-7 series of standalone GNSS modules is built on the exceptional performance of the u-blox 7 GNSS (GPS, GLONASS, QZSS and SBAS) engine. The NEO-7 series delivers high sensitivity and minimal acquisition times in the industry proven NEO form factor.

The NEO-7 series provides maximum sensitivity while maintaining low system power. The NEO-7M is optimized for cost sensitive applications, while NEO-7N provides best performance and easier RF integration. The industry proven NEO form factor allows easy migration from previous NEO generations. Sophisticated RF-architecture and interference suppression ensure maximum performance even in GPS-hostile environments.

The NEO-7 combines a high level of robustness and integration capability with flexible connectivity options. Futureproof the NEO-7N's internal Flash allows simple firmware upgrades for supporting additional GNSS systems. This makes NEO-7 perfectly suited to industrial and automotive applications. The DDC (I²C compliant) interface provides connectivity and enables synergies with u-blox cellular modules. For RF optimization the NEO-7N features an additional front-end LNA for easier antenna integration and a front-end SAW filter for increased jamming immunity.

u-blox 7 modules use GNSS chips qualified according to AEC-Q100 and are manufactured in ISO/TS 16949 certified sites. Qualification tests are performed as stipulated in the ISO16750 standard: "Road vehicles – Environmental conditions and testing for electrical and electronic equipment".

Package

24 pin LCC (Leadless Chip Carrier): 12.2 x 16.0 x 2.4 mm, 1.6 g

Pinout

13 14 15 16 17	GND ANT_ON/F Reserved Reserved	teserved	GND RF_IN GND VCC_RF RESET N	12 11 10 9 8
18 19 20	SDA SCL TxD	NEO-7 Top View	VDD_USB USB_DP USB_DM	765
21 22 23 24	RxD V_BCKP VCC GND	1	EXTINT IMEPULSE D_SEL Reserved	4 3 2

Environmental data, quality & reliability

Operating temp.	–40° C to 85° C
Storage temp.	–40° C to 85° C
RoHS compliant (lead-free)	
Qualification according to ISO 16750	
Manufactured in ISO/TS	16949 certified production sites
Uses u-blox 7 chips qua	lified according to AEC-Q100

Support products

u-blox 7 Evaluation Kits:

Easy-to-use kits to get familiar with u-blox 7 positioning technology, evaluate functionality, and visualize GNSS performance.

EVK-7N:	u-blox 7 GNSS Evaluation Kit, with TCXO, supports NEO-7N
EVK-7C:	u-blox 7 GNSS Evaluation Kit, with Crystal, supports NEO-7M

Product variants

NEO-7N	u-blox 7 GNSS LCC Module, TCXO, Flash, SAW, LNA
NEO-7M	u-blox 7 GNSS LCC Module, Crystal, ROM
