### 1 Affected Products

All u-blox short-range and cellular modules certified for the European market.

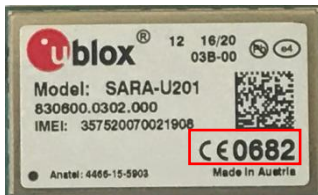

### 2 Type of Change

- Hardware modification
- Firmware update
- Label change

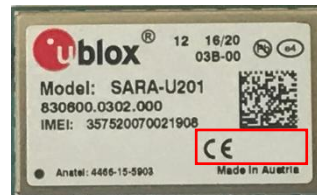

### 3 Description of Change

In order to comply with the new RED requirements, u-blox modules and support products that used to have a notified-body ID on the label, now will have a revised label without the ID next to the CE mark.

This modification does not apply to products that are ATEX certified, which shall continue to have the notified-body ID printed on the label.

Label according to the old R&TTEd

Label according to the new RED

### 4 Schedule

Production of modules with the changed label will start towards beginning of June 2017.

### 5 Customer Impact and Recommended Action

None
